## 2018 energy storage project inventory

---

### 2018 Energy Storage Project Inventory

Are energy storage systems changing? Rapid change is underway in the energy storage sector. Prices for energy storage systems remain on a downward trajectory.

### ENERGY STORAGE

This report examines (1) how energy storage can be used to enhance grid operations and performance; (2) factors that affect the deployment of energy storage for grid operations; and (3) federal and state policies and other efforts that address the deployment of energy storage.

**200kWh Battery Cluster**

### US energy storage project pipeline doubles in 2018, nears 33 GW

The pipeline for energy storage projects in the U.S. has doubled this year, ballooning to 32.9 gigawatts, according to the latest U.S. Energy Storage Monitor from Wood Mackenzie Power & Renewables and the Energy Storage Association (ESA).

 using interactive tools and filter options by  
 status, technology, subtechnology, and more.

## U.S. ENERGY STORAGE: 2018 Year in Review

Nearly 75,000 Americans are working in energy storage jobs to help manufacture, construct, repair, and operate energy storage projects, in almost every state in the Union, including fast-growing areas of Arizona, California, Florida, Hawaii, Massachusetts, Nevada and Texas.

## Energy Storage Industry White Paper 2018 (Summary Version)

Using CNESA's Global Energy Storage Project Database, as well as project information reported by vendors and integrators, CNESA's research department has developed predictions for China's energy storage market expansion and trends for the 2018-2020 period.

## 2018: Energy Storage Developments in the Last Twelve Months

The Roadmap provides a set of specific recommended actions to accelerate the deployment of energy storage projects in New York State and position the state as a leading national market for advanced energy storage

projects.

## CNESA's 2018 Year in Energy Storage

Since 2010, the China Energy Storage Alliance has maintained a global energy storage project database, tracked global energy storage market changes, and continuously supported energy storage industry development in China.

## **Solving Challenges in Energy Storage**

Because the outcomes of this project will be based on actual large-scale PV and storage deployments and operation experiences, the project will provide insight on which technologies will serve energy loads at low costs and high penetrations of solar.

## Energy Storage: a U.S. overview

U.S. Large-Scale Battery Storage Capacity by Region, 2018 Sources: U.S. Energy Information Administration, Form EIA-860M, Preliminary Monthly Electric Generator Inventory; U.S. Energy Information Administration, Form ...
