Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems.

We design our solar systems for Solomon Island's hot temperatures and remote, rural conditions. We only use GEL lead acid or Lithium batteries; quality components from manufacturers like Victron Energy, and we ensure that we 'oversize' the amount of solar power to keep batteries fully charged.
