What is the range of motor units offered by ABB?

ABB offers six different motor units between 2.5-50 Nm max dynamic torque. The portfolio includes standardized motor unit packages complete with cabling, serial measurement board (SMB) box and safety options.

Do ABB motor units work with other ABB equipment?

All motor unit versions are already used in ABB's range of high-quality positioners and robots, so integrators can rest assured that the motor units are tested and proven parts that are pre-engineered to work perfectly in combination with other ABB equipment.

How many miniature circuit breakers does ABB make?

In the intervening years, the business now known as ABB Stotz-Kontakt has manufactured more than 950 million miniature circuit breakers. At a rate of 42 million miniature circuit breakers annually at its production plant in Heidelberg, Germany, ABB will break the one billion mark by 2015 as it expands its leadership position in this technology.

What are ABB motor and drive packages?

Because variable speed drive pairings can be industry optimized, ABB motor and drive packages are ideal for everything from water and wastewater to HVAC and food and beverage production. But any industry can benefit from the advantages that the motor-drive package offers.
