Active energy group Tunisia

Lithium Solar Generator: \$150

Overview

Who is active Energy Group plc?

Active Energy Group plc (AIM: AEG.L) is an AIM listed renewable energy company focused on the production and development of next generation biomass products that have the potential to transform traditional coal fired power and heavy industries and the existing renewable biomass industry.

What percentage of Tunisia's electricity is generated from natural gas?

In 2020, natural gas made up 86% of Tunisia's installed capacity and 95% of power generation, while renewable energy made up 13% of installed capacity and 5% of power generation. Fossil fuels represent the majority of Tunisia's electricity generation mix (approximately 97%), with natural gas being the primary fuel source.

What drives Tunisia's energy transition?

Three key drivers will dictate Tunisia's energy transition: energy security, given Tunisia's growing energy balance deficit; economics, given the relative decrease in the price of renewables; and environment, given the Country's commitment to reduce domestic greenhouse gas emissions.

How many natural gas fields are in Tunisia?

Tunisia has five gas and oil&gas fields in operation: Hasdrubal, Miskar, Nawara, Sabria, and Chouech Es Saida. While Tunisia produces natural gas (approximately 87,404.63 million cubic feet of natural gas per year, as of 2015), the majority of demand is met through energy imports from neighboring countries.

Who produces the most electricity in Tunisia?

While STEG controls the vast majority (91.7%) of installed generating capacity and generates 84% of the country's electricity, there is one independent power producer, Carthage Power Company, operating in Tunisia. Carthage

Power Company owns and operates a 471-MW combined cycle power plant.

What can AEG do to develop next generation biomass fuels?

To develop next generation biomass fuels using sustainable resources. AEG is also investing in research development to development additional biomass fuels utilising waste timber or next generation crops which can either be used as a primary feedstock or used to co-fire with coal.

Active Energy Group Pty Ltd Reviews 2024 , Trustindex.io

Active Energy Group installed a 10kW Solar system for us 15 months ago. The system was installed in a day. AEG worked professionally and were friendly and informative when communicating with us. We now have zero nett energy costs, and the system is making us money every month. These guys only use high-quality components and it shows.
