Aelia power energy solutions Iceland

Aelia power energy solutions Iceland

Space Solar partners with Iceland for renewable energy solutions.

Space Solar, a U.K. company, has recently signed an agreement with Transition Labs to bring 30 MW of space-based solar power to Reykjavik Energy in Iceland by 2030. This innovative approach involves harnessing solar energy in orbit around Earth and transmitting it wirelessly to ground-based stations using high frequency radio waves.

Energy & Green Solutions

Minimising the carbon footprint while reducing costs is a challenge that Iceland rises to. 100% of electricity produced in Iceland is green, the Icelandic transmission and distribution grid is product of cost effective harnessing of geothermal resources and the power of Iceland's glacial rivers.
