

## European Solar Energy Storage

# Aentron gmbh energy solutions U S Virgin Islands

## Overview

---

Where are aentron batteries made?

The aentron GmbH, based in Gilching near Munich, is a provider of high-quality lithium-ion batteries for industrial applications. The particularly robust energy storage solutions are developed and produced in Germany and are characterized by high resilience, scalability modularity and security.

What are aentron lithium-ion energy storage systems?

aentron lithium-ion energy storage systems enable you to create modular and scalable battery solutions. We provide operating voltages from 12, 24, 48 Vdc up to 900 Vdc with capacities from 1 kWh to 1 MWh. All energy storage systems of a product group can be scaled modularly and integrated into solutions with third-party components.

What is aentron energy storage?

The aentron energy storage solutions are developed and produced in Germany and are characterized by their robust design, scalability, modularity and safety. Furthermore, due to the modular design concept, battery voltages from 12 V to 900 V are possible allowing a wide range of applications.

What is aentron battery technology?

Powerful Battery Technology for all applications in the field of electromobility. aentron develops and produced lithium-ion battery-systems.
