

## European Solar Energy Storage

# African energy storage alliance headquarters

## Overview

---

Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

What are the most popular solar-plus-storage developments in Africa?

As noted by AFSIA Solar, one of the most notable solar-plus-storage developments in Africa is Norway-based independent power producer (IPP) Scatec's 225MW/1,140MWh Kenhardt project in South Africa. The site started operation in late 2023 (pictured above).

How can Canadian companies help solve Africa's energy problems?

Another excellent Canadian initiative is SkyPower Global's donation of 5,000 solar-powered lights to South African villages without electricity so children can have light for reading and writing at night. Companies like Skypower. can help meet the energy needs of sub-Saharan Africa through innovative technologies and by investing in new projects.

Is solar PV a focal energy resource for Africa?

Solar PV, which, as reported by our colleagues at PV Tech in their write-up of the AFSIA report, reached 19.2GW in 2024, increasing by 2.5GW on 2023 levels, is becoming the focal energy generation resource for Africa.
