

## European Solar Energy Storage

# Albania datasafe battery

## Overview

---

What is a datasafe battery?

The EnerSys 12HX330 Datasafe Battery is a valve-regulated lead-acid battery designed to offer superior solutions for the Information Technology and Uninterruptible Power Supply markets. DataSafe HX batteries are the ideal source of power to protect vital systems.

How long does a datasafe battery last?

The addition of an EnerSys Front Terminal DataSafe cabinet allows for higher energy density, and the UL 1778 standard-meeting flame-resistant case and cover ensure that the battery reaches its full 10-year lifespan. DataSafe® HX batteries are supplied in a charged condition and are capable of extremely high short circuit currents.

What is a datasafe DX battery?

The DataSafe® DX range of flooded lead-calcium flat plate batteries has been designed for use in UPS applications, more specifically large data centers, which demand the highest levels of security and reliability. The reliability of DataSafe DX as a leading high rate performance battery is backed by 20+ years of experience in the marketplace.

What is a datasafe HX battery?

DataSafe HX batteries are the ideal source of power to protect vital systems. The minimal level of gas evolution allows battery installation in cabinets or on stands, in offices or near mail equipment, maximizing space utilization, and reducing storage and maintenance costs.

 EnerSys Asia 152 Beach Road, Gateway East Building #11-03, Singapore ...

### **EnerSys DataSafe 12HX35T-FR Battery 12v 36W ...**

EnerSys DataSafe 12HX35T-FR valve regulated lead acid batteries have been designed to offer superior solutions for the Information Technology and Uninterruptible Power Supply markets. DataSafe HX batteries are the ideal ...

### **EnerSys DataSafe 2DX-23B Lead Acid Battery**

EnerSys DataSafe DX Series EnerSys DataSafe DX Series 2DX-23B 4 Volt / 1325 Ah @8 Hr with Nut & Bolt Terminals. Be the first to review "EnerSys DataSafe 2DX-23B Lead Acid Battery" Cancel reply. Your email address will not be published. Required fields are marked \*

## **ENERSYS DATASAFE 12HX100R-FR BATTERY 12V 100W SEALED**

ENERSYS DATASAFE 12HX100R-FR BATTERY 12V 100W SEALED. EnerSys DataSafe 12HX100R-FR valve regulated lead acid batteries have been designed to offer superior solutions for the Information Technology and Uninterruptible Power Supply markets. DataSafe HX batteries are the ideal source of power to protect vital systems.

### [Energys 12HX300 Datasafe Battery](#)

The EnerSys 12HX300 DataSafe Battery is a high quality sealed lead acid rechargeable battery that is engineered to provide superior performance and long service life. This battery is a maintenance-free, non-spillable valve regulated ...

## **Energys 12HX540 datasafe battery maintenance sheet**

The recommended charging method for DataSafe HX batteries is current limited, constant voltage charging. Refer to Table 1 for the current limits for each battery model. State of Charge The battery state of charge can be

determined approximately by measuring the open circuit voltage after the battery has been at rest for a minimum of 24

## Energys 12HX300 Datasafe Battery

This unique battery combines the power of 12V with a low level of gas evolution, earning its approval for air freight applications. The EnerSys 12HX300 DataSafe Battery meets UL safety standards and is suitable for use in offices, cabinets, ...

## EnerSys DataSafe 12HX300 Battery

A live battery specialist will get back to you within 24 hours. Warranty: Our EnerSys battery is covered under a one-year free replacement warranty directly through High-Tech Battery Solutions, Inc. EnerSys - 12HX300-FR Battery Features. DataSafe® HX Top Terminal; Capacity: 284 WPC (Watts per Cell), 70 AH; Designed specifically for UPS

## EnerSys DataSafe HX 12V Battery

EnerSys UPS Batteries, DataSafe HX 12V, are valve regulated lead acid batteries that have been designed to offer superior solutions for the UPS, IT and Telecom (select models) markets which demand the highest levels of security and ...

## **12HX150-FR BATTERY ENERSYS DATASAFE 12V 150W 38AH AGM**

DataSafe HX batteries are the ideal source of power to protect vital systems. 12HX150-FR DataSafe HX batteries incorporate select design features that maximize reliability while ensuring superior performance and an excellent service life. 12HX150-FR Battery Features and Benefits, : 12 Volt 38 AH - 150Watt; Size 7.8 " x 6.50? x 6.70? 32 lbs.

## **Energys 12HX330 Datasafe Battery Data Sheet**

The DataSafe® HX top terminal battery range of Valve Regulated Lead Acid (VRLA) batteries has been designed to offer superior solutions for the Information Technology (IT) and Uninterruptible Power Supply (UPS) markets. DataSafe HX top terminal batteries are the ideal source of power to protect vital systems.

## [12HX540-FR BATTERY ENERSYS DATASAFE](#)

Description 12HX540-FR BATTERY ENERSYS DATASAFE. 12HX540-FR BATTERY ENERSYS

DATASAFE ENERSYS DATASAFE 12V 540 Watt SEALED Lead Acid AGM. EnerSys DataSafe 12HX540-FR valve regulated lead acid batteries have been designed to offer superior solutions for the Information Technology and Uninterruptible Power Supply markets. DataSafe HX ...

## EnerSys DataSafe 12HX100RFR Lead Acid Battery

EnerSys DataSafe HX Series EnerSys DataSafe HX Series 12HX100RFR 12 Volt / 26 Ah @20 Hr with Recessed M5 Terminals. Be the first to review "EnerSys DataSafe 12HX100RFR Lead Acid Battery" Cancel reply. Your email address will not be published. Required fields are marked \*

## **EnerSys DataSafe 12HX680F-FR Battery Front Terminal 12v 680W**

The DataSafe® 12HX680F-FR Front Terminal Battery. EnerSys®, one of the world's largest and most innovative industrial battery manufacturers, is proud to introduce the new front terminal DataSafe® 12HX680F-FR to our line of Uninterruptable Power Supply (UPS) battery solutions. The DataSafe 12HX680F-FR battery offers the convenience and lower maintenance costs of a ...

## **EnerSys DataSafe XE 12XE1150F-FR Battery Report , Data , Charts**

DataSafe XE 12XE1150F-FR Battery By EnerSys.

See 12XE1150F-FR Data Sheet, Performance Charts, Manuals, Specifications, and more.

## **ABSL Space Batteries , PRIMARY BATTERIES DRY & WET , EnerSys**

Our ABSL batteries were the first rechargeable lithium-ion batteries flown in space, are the longest serving lithium-ion spacecraft batteries, and are the most demonstrated lithium-ion space batteries with more Lithium-ion flight heritage than any other battery.

## [EnerSys DataSafe NPX Battery](#)

Ideal for high-power short-duration applications, DataSafe NPX batteries provide 50% more wattage in a 30% smaller size compared to conventional lead-acid batteries. VRLA technology eliminates watering needs and offers flexible installation.

## [NPX-100RFR ENERSYS DATASAFE Battery](#)

DataSafe NPX-100RFR flame retardant valve regulated lead-acid batteries are designed for high rate discharge applications. These batteries are used primarily where high wattage is required for a short duration. With 50% more wattage available and a 30% reduction in size over

conventional batteries, DataSafe NPX batteries offer a superior value

## **12HX100R-FR BATTERY ENERSYS DATASAFE Battery**

These batteries are used primarily where high wattage is required for a short duration. With 50% more wattage available and a 30% reduction in size over conventional batteries, DataSafe HX batteries offer a superior value, especially in UPS applications. MFG: DataSafe Enersys HX Series; Chemistry: Sealed Lead Acid; Nominal Voltage: 12v

## **DataSafe HX 12V Top Terminated Battery Installation**

The recommended charging method for DataSafe HX batteries is current limited, constant voltage charging. Refer to Table 1 for the current limits for each battery model. State of Charge The battery state of charge can be determined approximately by measuring the open circuit voltage after the battery has been at rest for a minimum of 24

## **12HX-FT**

The recommended charging method for DataSafe 12HX-FT batteries is current limited, constant voltage charging. Refer to Table 1 for

## 12HX100R-FR BATTERY ENERSYS DATASAFE Battery

These batteries are used primarily where high wattage is required for a short duration. With 50% more wattage available and a 30% reduction in size over conventional batteries, DataSafe HX batteries offer a superior value, ...

the current limits for each battery model. State of Charge The battery state of charge can be determined approximately by measuring the open circuit voltage after the battery has been at rest for a minimum of 24

## DataSafe HX Battery Range Summary

The DataSafe® HX top terminal battery range of Valve Regulated Lead Acid (VRLA) batteries has been designed to offer superior solutions for the Information Technology (IT) and Uninterruptible Power Supply (UPS) markets. DataSafe HX top terminal batteries are the ideal source of power to protect vital systems.
