

## European Solar Energy Storage

# Amptricity solid state battery Sri Lanka

## Overview

---

Is amptricity the first solid-state battery for home energy storage?

Amptricity has emerged from stealth mode with plans to manufacture solid-state batteries for residential and commercial installations. From pv magazine USA Amptricity has announced what it says is the first solid-state battery for home energy storage.

Does amptricity offer a solar energy storage system?

“With Amptricity’s solid state technology, homeowners can store energy for backup power – whether they have solar PVs or not.” Residential energy storage systems of 12 kWh to 48 kWh and commercial systems from 60 kWh to 80 kWh are available for preorder on Amptricity’s website.

What makes amptricity a good battery?

Amptricity reports that its next-generation battery technology represents eight-hour discharge, simultaneous charging and discharging, no thermal runoff, zero toxicity, 100% recyclable, fully functional in extreme cold and hot temperatures, and high energy storage efficiency with an annual retention rate of more than 96%.

When does amptricity start shipping?

Amptricity, founded in 2020 and headquartered in Miami, expects residential systems to begin shipping in early 2023, with commercial 1 MWh ESS units to ship in Q4 2022.

What is a solid state battery?

Co-founded by a global team of engineers and renewable-industry experts, its proprietary solid state batteries include a cell capacity above 500 Ah (amp-hour) up to 3,000 Ah with an 11,000-deep discharge cycle.

How many product configurations does amptricity offer?

Ampticity has 15 commercial product configurations to address every market, including residential, light commercial, industrial, municipal, utilities, and renewables like solar and wind. Ampticity is accepting pre-orders now. Power Forward! | A collaboration with BayWa r.e. to discuss higher level industry topics.

## Ampricity solid state battery Sri Lanka

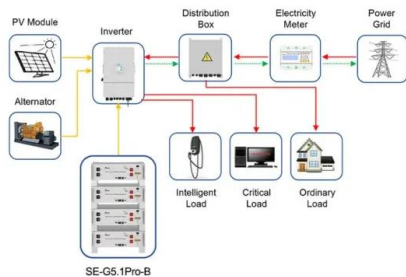

### [Order Commercial , Ampricity](#)

Ampricity offers the only mass-produced solid-state battery storage systems for applications in front of the meter and after the meter, e.g., commercial, industrial, and government applications. Commercial and industrial organizations can save on their energy costs by adopting solar with the Ampricity battery system and controlling their generation needs.

## [Solid State Technology , eDrones](#)

Solid-state battery technology from Amptricity significantly enhances the performance and speed of drones in the eDrone Racing League. Unlike traditional lithium-ion batteries, solid-state batteries offer higher energy density, allowing drones to

**Efficient  
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trainers, 150V DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

**Intelligent  
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnostic function locates PV string faults accurately and automatically detect faults
- DC & AC Type-II SPDs prevent lightning damage
- Battery Reverse Connection Protection

**Flexible  
Abundant Configuration**

- High & Plus SPD Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
