

## European Solar Energy Storage

# Atacama energy storage

## Overview

---

What is the Oasis de Atacama project?

The Oasis de Atacama project features an energy storage capacity of 11 GWh plus 2 GW of photovoltaic generation capacity. The project will be built in seven phases and will produce around 5.5 TWh of energy annually which will be shifted to non-solar-generation hours.

How much solar power does Oasis de Atacama have?

Once all seven phases are completed, Oasis de Atacama will reach the installed solar power capacity of 2 gigawatts and the battery storage capacity of 11 gigawatt-hours.

How much money has Greenergy raised for Oasis de Atacama?

With US\$354 million in financing for Phases 1 and 2, US\$299 million for Phase 3 and now the latest transaction, Greenergy has raised just under a billion dollars (US\$967 million) for Oasis de Atacama to date, the company noted. In addition, the sale of 23% of the project to ContourGlobal is worth up to US\$962 million.

Will Oasis de Atacama be the world's largest Bess installation?

Set to be built in seven phases in total, the Oasis de Atacama complex will comprise 2GW of solar PV and 11GWh of battery storage in total, presuming the entire project proceeds as planned. This has led the IPP to claim the project will feature the world's largest BESS installation when completed.

Is BYD supplying equipment for the Oasis de Atacama project?

Rival Chinese manufacturer BYD is supplying equipment for previous phases. Set to be built in seven phases in total, the Oasis de Atacama complex will comprise 2GW of solar PV and 11GWh of battery storage in total, presuming the entire project proceeds as planned.

Is a battery storage system coming to Antofagasta?

Atlas Renewable Energy has signed a long-term agreement with the Chilean energy company Colbun to implement an off-grid battery storage system project in the Antofagasta Region. The 230-megawatt project, with a storage volume of 920 megawatt-hours, is designed for 4-hour operation and slated to be launched in 2027.

### Greenergy reveals 'world's largest' 4.1 GWh BESS project in Chile

With Oasis de Atacama, it becomes one of the first companies in the world to sign a PPA combining solar energy and storage projects. "Oasis de Atacama will be an iconic ...

### Greenergy secures financing for two phases of ...

Madrid-headquartered independent power producer (IPP) Greenergy has reached financial close on the first two phases of its Oasis de Atacama solar and battery energy storage hybrid project in Chile.

### Greenergy expands Oasis de Atacama with the acquisition of 1 ...

Greenergy is to expand its Oasis de Atacama battery project with two new phases through the acquisition of 100 percent of 1 GW solar, including 1 GW energized line, ...

### 3.5GWh, BYD Energy Storage Signs Largest Energy Storage ...

...

Recently, BYD Energy Storage signed an energy storage order agreement with Grenergy, a world-renowned renewable energy company, for the supply of 3.5GWh energy ...

### Spain's Grenergy to invest EUR2.6bn in solar and ...

Grenergy CEO David Ruiz de Andrés said: "Today, Chile is a superpower in terms of the development of energy storage due to the exceptional conditions of the Atacama Desert in terms of hours of solar ...

### BYD to supply BESS for 'world's largest energy ...

Independent power producer (IPP) Grenergy and BYD have signed a strategic agreement for the supply of 1.1GWh of battery energy storage systems (BESS) for the Oasis de Atacama project in the Atacama ...

### World's largest energy storage system is being ...

Spanish green energy producer Grenergy has begun the construction of an energy storage facility in Chile's Atacama Desert. The Oasis de Atacama project, at 4.1 GWh, will be the largest in the world, the ...

## First phase of 2 GW/11 GWh solar-plus-storage ...

Spanish company Grenergy says the 105 batteries that will complete the first phase of the Oasis de Atacama solar and storage project have arrived at the Chilean port of Iquique. The project, to be

## 600 MWh of BYD batteries arrive for Chile's Oasis ...

The Oasis de Atacama project features an energy storage capacity of 11 GWh plus 2 GW of photovoltaic generation capacity. The project will be built in seven phases and will produce around 5.5 TWh of ...

## Grenergy raises US\$324 million for Phase 4 of

The financing will be used towards the deployment of 269MW solar PV generation capacity and 1.1GWh of battery energy storage systems (BESS), at Gabriela, the fourth phase of Grenergy's Oasis de ...

## Grenergy closes USD-299m loan for 3rd phase of ...

Spanish renewables developer-operator Grenergy Renovables SA (BME:GRE) has secured an additional USD 299 million (EUR 285m) in financing for the third phase of its Oasis de Atacama ...

### Oasis de Atacama

The battery rack in our Battery Energy Storage System (BESS) securely holds and organizes modules, ensuring alignment, easy installation, and maintenance. It also optimizes airflow for peak performance.

### Oasis de Atacama

Battery energy storage systems are essential for ensuring a stable and efficient electricity supply, especially during the transition to renewable sources. By storing energy when production is ...

## **Greenergy and BYD extend their battery agreement to 3GWh for ...**

Greenergy has extended the strategic agreement signed earlier this year with BYD, a high-tech multinational company, for the supply of large-scale storage systems (ESS) ...

## Greenergy signs its largest battery purchase agreement with BYD Energy

Greenergy has signed a new agreement with global energy solutions provider BYD Energy Storage for the supply of 3.5 GWh in energy storage systems to be installed in the ...

## World's biggest battery storage project gets underway in Chile

Financial close has been reached for the first two phases of the world's largest battery storage project, the Oasis de Atacama in Chile, with 1.24GWh now financed and an ...

## BYD to supply 3 GWh of battery storage for ...

Spanish developer Greenergy has extended the strategic agreement signed earlier this year with China's battery maker BYD for the supply of its Oasis de Atacama project in Chile, which will eventually ...

## Greenergy Secures \$299M for Chile's Oasis Storage Phase

Greenergy Renovables secures \$299M for Oasis de Atacama's third phase, enhancing Chile's renewable energy landscape with 451 MW solar capacity and 2.5 GWh ...

### Atacama 1 Solar Therma Plant

The project is based in the Atacama Desert, the region with the highest level of solar radiation in the world. Atacama 1 will feature a photovoltaic plant with a capacity of 100 ...

### **Chile's Oasis de Atacama storage project expands ...**

Spanish developer Greenergy has unveiled plans to double the PV portion of its Oasis de Atacama project in Chile to 2 GW and expand the battery storage capacity from 4.1 GWh to 11 GWh.

### **Chile inaugurates its largest standalone battery ...**

Chile Energy Minister Diego Pardow was present at the inauguration of the 200 MW/800 MWh BESS del Desierto, a project its developers describe as the first large-scale standalone energy storage ...

## AES Andes completes Latin America largest ...

The Antofagasta region, where the project will be located, lies within the Atacama desert. Image: Elias Roviello. AES Andes, a subsidiary of US multinational AES Corporation, has completed the ...

## Chile BESS news: AES project approved, ...

Its project is in a different part of the Atacama region, but still within the Atacama desert. Oenergy's Halcon 5 BESS project proposed the construction of the energy storage plant and a 110kV high voltage ...

## Greenergy secures \$345m for Oasis de Atacama ...

Spanish energy recovery marketing company Greenergy Renovables has secured a \$345m green loan for the initial two phases of the Oasis de Atacama project, a solar and battery energy storage system ...

## First phase of 2 GW/11 GWh solar-plus-storage ...

Spanish independent power producer Greenergy has announced 105 BYD batteries have arrived at the Chilean port of Iquique to complete the first phase of the Oasis de Atacama solar and storage

## Greenergy closes USD-299m loan for 3rd phase of Chilean storage ...

Spanish renewables developer-operator Greenergy Renovables SA (BME:GRE) has secured an additional USD 299 million (EUR 285m) in financing for the third phase of its ...

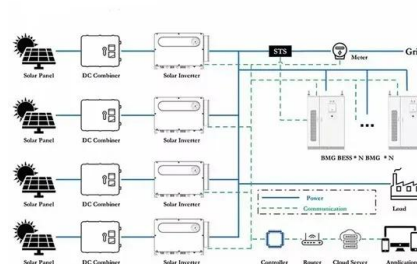

## BYD Energy Storage Signs Landmark Supply ...

BYD Energy Storage is breaking geographical limits through technological innovation, offering a "desert solution" for the global energy transition. The Atacama Desert, with the world's strongest solar ...

## Chile: Colbún inaugurates first of 800MW energy ...

Colbún has inaugurated a solar-plus-storage project with a 32MWh battery storage system in the Atacama region, the first of 800MW.

## **Greenergy buys 1 GW of inverters from Ingeteam for ...**

The developer has used multiple suppliers at the site, to reduce the risk of supply problems. China's BYD Energy Storage signed a 3.5 GWh supply deal for the site last month - securing its biggest Latin ...
