

## European Solar Energy Storage

# Australia solar system home price

## Overview

---

On average, you can expect to pay around \$4000 to \$6000 for a typical residential installation in Australia. This covers the cost of panels, labour, mounting hardware, and electrical work.

On average, you can expect to pay around \$4000 to \$6000 for a typical residential installation in Australia. This covers the cost of panels, labour, mounting hardware, and electrical work.

Expect to pay between AU\$0.69 and AU\$1.20 per watt for supply and install for your entire system (panels, inverter, install, approvals and everything else to make it work).

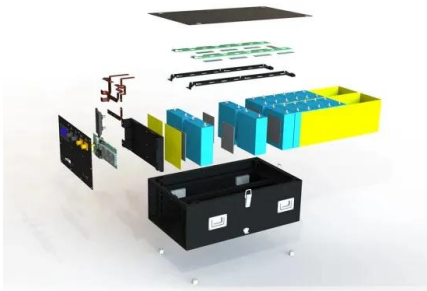

Here's a rough estimate of the cost of off-grid solar systems in Australia in 2024-2025:  
Basic system (3-5 kW): \$25,000-\$35,000  
Mid-range system (5-10 kW): \$35,000-\$50,000  
High-end system (10 kW+): \$50,000-\$70,000.

As such, a good quality 6.6kW solar system used in a typical Australian house will generally cost between \$5,000 and \$7,000.

According to a Canstar Blue survey conducted between March and September 2024, the average cost of solar panels in Australia was \$5,111.
