For this purpose, solar energy is the best alternative for them to be cost-effective and energy-efficient. In the upcoming decade, energy costs are estimated to become double. Solar panels ...

F.A.Q. -- Bahamas Energy & Solar Supplies

A: While solar panels can be installed on almost any type of roof, there is an ideal roof for a solar installation. If done properly, a solar installation should last 25 - 30 years. Consequently, a roof should be prepared to last the same period of time. It is worth noting that a solar panel installation can extend the life of your roof.

Solar installation for homes, businesses, islands and more.
