Bahamas prices for solar

Overview

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

How much does electricity cost in Bahamas?

The price of electricity for households and businesses in Bahamas is BSD 0.453 per kWh or USD 0.453 per kWh. This includes all components of the electricity bill such as the cost of power, distribution, and taxes.

What is net metering in the Bahamas?

This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill. Our goal is to design and build systems that can achieve maximum independence from the ever increasing cost of power.

What is the Bahamas national energy policy?

BESS AWARDED 'BEST MICROGRID PROJECT' AT THE CREF 2022 INDUSTRY AWARDS! The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours.

What is the return on investment in the Bahamas?

In The Bahamas, your return on investment can be as high as 20% or more! There are 2 types of systems. Grid Tied and Off Grid. For both, the key issue is a knowledgeable and trustworthy installer. Proper site assessment (condition

and orientation of roof) is a must. Read more. + Questions to ask your installer.
