Waste to Energy

What is Waste to Energy? Waste to Energy (WTE) is an innovative process transforming heat energy from destroying waste materials into usable electrical energy. At our WTE facility, waste is collected, stored temporarily, and then incinerated in a high-temperature furnace. The heat generated from this process is used to boil water, producing steam. This steam

Barbados , Battery Energy Storage Systems Facilities Critical for

The introduction of battery energy storage systems (BESS) facilities will greatly enhance the island's ability to integrate renewable energy into the grid, stabilise power supply, and reduce dependence on fossil fuels. This view was expressed by Senior Technical Officer, in the Ministry of Energy and Business, Destine Gay, who is also part of the Project [...]
