## Bayer invests in energy storage power station

---

### Bayer and Cat Creek Energy Sign Landmark ...

For Idaho, the renewable plus energy storage projects will continue the state's conversion to clean reliable energy by 2045. For rural communities, the result will be over \$1.5 billion in new electrical infrastructure, ...

### Bayer inks Renewable-Battery Storage PPA with Cat Creek Energy ...

German pharmaceutical giant Bayer has signed a long-term structured renewable energy credit purchase agreement with Idaho-based renewable energy firm Cat Creek Energy (CCE).

### Bayer and Cat Creek Energy Sign Landmark Renewable Energy ...

For Idaho, the renewable plus energy storage projects will continue the state's conversion to clean reliable energy by 2045. For rural communities, the result will be over \$1.5 billion in new electrical infrastructure, the creation of hundreds of jobs, and contribution of millions of dollars in year-over-year tax revenues contributed for

### How about Bayer's shared

## energy storage power station?

Bayer's shared energy storage power station is an innovative facility designed to store and manage energy generated from renewable sources. This initiative reflects Bayer's commitment to sustainability and energy efficiency by employing advanced battery storage technologies to balance energy supply and demand.

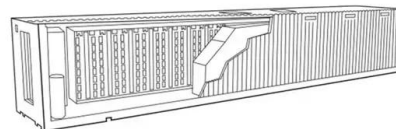

## Enel and Bayer's Energy Storage Milestone: Powering

...

Enel North America, a leader in clean energy solutions, and Bayer have jointly announced the successful completion of a solar and energy storage system at Bayer's vegetable research and development site in Woodland, California.

## Bayer agrees 1.4 TWh renewables off-take deal in US , Energy Storage

German chemical and pharmaceutical group Bayer AG (ETR:BAYN) has signed a long-term deal to procure 1.4 TWh of renewable power per year from assets to be built in Idaho and use it to power the group's US business.

## Bayer invests in energy storage project

Bayer invests in energy storage project Why is Bayer focusing on energy storage? "We admire Bayer's commitment to find projects near its Idaho facility, which has the highest electricity use within Bayer in the United States, signifying a major milestone in their global energy goals."

By investing in energy storage facilities, Bayer can leverage advancements in battery technologies and grid solutions that facilitate energy management, allowing them to store excess energy generated during peak periods for later use.

## How about Bayer's investment in energy storage power stations

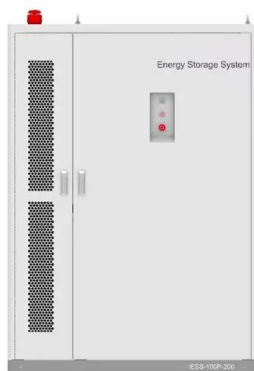

By investing in energy storage facilities, Bayer can leverage advancements in battery technologies and grid solutions that facilitate energy management, allowing them to store excess energy generated during peak production periods for later use.

## CENTRICA INVESTS IN RENEWABLE ENERGY STORAGE

WOODLAND, CA - January 23, 2024 - Clean energy leader Enel North America and Bayer today announced the completion of a 2.7 MW solar and 1 MW / 2 MWh energy storage system at Bayer's vegetable research and development site in Woodland, Calif. Located in a region

historically prone to rolling blackouts and grid disruptions, the solar-plus

## Bayer Invests in New Energy Storage: Powering the Future with

When Bayer - yes, the Bayer of aspirin and crop science fame - announced its multimillion-dollar leap into energy storage last week, industry watchers did a double-take.
