## Home Battery Backup Power Vs. Generators , EnergySage

Many standby generator options in the \$2,000 to \$7,000 range can power a standard American home. But the average generator cost, including installation, is \$9,000. By comparison, a 10 kilowatt-hour (kWh) home backup battery costs about \$8,000 after incentives. If you want whole-home power, you'll probably need more storage than that,

## Whole-home battery backup: Pros, cons, and the best batteries

\*Prices reflect the federal tax credit but don't include solar panels, which you'll need to keep your battery charged during an outage. The difference between whole-home and partial-home battery backup systems is pretty self-explanatory: Whole-home battery backup systems can power your entire home in the event of an outage, whereas partial-home setups
