

European Solar Energy Storage

Belize tinmar green energy

Overview

What is the energy sector like in Belize?

This page is part of Global Energy Monitor 's Latin America Energy Portal. Belize relies heavily on fossil fuels, especially in its transport sector, but renewables play an important role in the electrical sector.

What is the energy transition plan for Belize?

The government of Belize (GoB) has laid out its Gas and Electricity transition plan and goals, including an increase in renewables to 85% by 2033 and a reduction in energy intensity; energy intensity measures how much energy is required to produce one unit of economic output and is an indicator of climate change's effects on economies.

How much does electricity cost in Belize?

Belize's utility rates are approximately \$0.22 per kilowatt-hour (kWh), lower than the Caribbean regional average of \$0.33/kWh because of existing renewable energy projects, but still high compared with U.S. mainland rates.

Will the government of Belize invest in solar energy?

The Government of Belize intends to encourage investment in utility solar-energy facilities. However, it has not yet publicly announced a request for proposals. On a smaller scale, the Government of Belize has installed solar micro-grids and solar-powered streetlights in rural communities not yet connected to the national grid.

What is solar power in Belize?

Solar Power refers to the capturing and conversion of sunlight to generate electricity. According to the Central America Solar Map, about 65% of Belize's land area receives 5.0 to 5.5 Kilowatt hours (KWh) per square meter of sunshine per day (source: Belize National Energy Policy Framework 2011).

How much hydro power does Belize have?

At that time, the consultant found that Belize had approximately 70 MW of developable hydro potential, capable of yielding 330,000 MWh of annual energy. (source: Belize National Energy Policy Framework 2011) As of 2012, forty (40) percent of the country's overall electricity consumption was powered by Hydro sources (a total of four dams).
