V2L into Bluetti system providing 240v whole home backup?

Using the split phase adapter and a transfer switch would allow for 240v backup to the home. Then to make use of the Ioniq battery when needed, V2L adapter from that to top up the Bluetti batteries. Could also add solar down the line, hopefully this setup would require little to no modification for that.

BLUETTI targets consumer market with home energy storage ...

The company has a Corporate Social Responsibility initiative to donate a solar power system to a needy home in Africa for every AC500 or AC300 system sold. BLUETTI says it has already donated

Innovative Clean Energy Solutions , bluetti

Flexibility always comes as the first priority of BLUETTI'S innovations. Ever since the launch of AC300+B300 system in 2021, BLUETTI has started to make their premium solar power

systems modular, bringing extraordinary versatility and compatibility. The latest EP600 and B500 inherit this fine tradition.
