

European Solar Energy Storage

Benin enersys inc

Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallels connection

Overview

EnerSys is a stored energy systems and technology provider for industrial applications. The company manufactures reserve power and motive power batteries, power equipment, battery accessories and outdoor equipment enclosure systems. Motive power batteries and chargers are utilized in electric forklift trucks and o.

How much energy does Benin use in total?

In the year 2009, Benin's total energy consumption was 3,475 ktoe (World Bank, 2009).

How can Benin increase its energy resilience?

Benin's energy resilience can be improved by developing over 80 pre-identified sites using micro-hydro applications. This would help Benin increase its energy resilience, as fluctuations in fossil fuel prices compromise its domestic capacity to develop energy services. Only one major hydroelectric site currently functions in Benin, highlighting the potential for expansion in this area.

Who is responsible for generating electricity in Benin?

Societe Beninoise d'Energie Electrique (SBEE) is responsible for generating around 13% of electricity in Benin through diesel generators. ABERME (Agence Beninoise d'Electrification Rurale et de Maitrise d'Energie), on the other hand, is responsible for rural energy supply.

How much does it cost to electrify Benin?

The total investment cost required to achieve universal electrification in Benin by 2030 ranges from 1.2 to 5.9 billion USD.

Does Benin have a large hydroelectricity potential?

Benin has a huge and untapped renewable energy potential, particularly in hydroelectricity. Currently, only one major hydroelectric site functions in the country. Developing over 80 pre-identified sites using micro-hydro

applications could help Benin increase its energy resilience and better utilize its hydroelectricity potential.

Why is Benin experiencing an energy crisis?

Benin has been experiencing an energy crisis since early 2007 due to curtailed supply from its neighbors Ghana and Cote d'Ivoire. The lack of operational capacity at the distribution utility SBEE did not help to resolve the crisis.
