The General Post Office and Government Administration Buildings solar panel systems were commissioned on 20 June 2022. The two building systems are operating together and solar produced is reported collectively.

Sustainability

Solar. Solar energy is any type of energy generated by the sun that can be harnessed directly or indirectly for human use. Solar energy is constantly flowing away from the sun and throughout the solar system. In fact, the Bermuda sail rig is the most common rig in modern sail boats that use wind power to move

around. The Bermuda Rig was
