

European Solar Energy Storage

Best solar panel producers Solomon Islands

Overview

List of Solomon Island solar panel installers - showing companies in Solomon Islands that undertake solar panel installation, including rooftop and standalone solar systems.

List of Solomon Island solar panel installers - showing companies in Solomon Islands that undertake solar panel installation, including rooftop and standalone solar systems.

Company profile for installer Solomon Power - showing the company's contact details and types of installation undertaken.

Superfly is focused on quality. We design our solar systems for Solomon Island's hot temperatures and remote, rural conditions. We only use GEL lead acid or Lithium batteries; quality components from manufacturers like Victron Energy, and we ensure that we 'oversize' the amount of solar power to keep batteries fully charged.

Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems.

Maximise annual solar PV output in Noro, Solomon Islands, by tilting solar panels 7degrees North. Noro, located in the Solomon Islands, presents a highly favorable location for solar energy production. How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

How many solar homes are there in the Solomon Islands?

“Solomon Islands currently has one of the lowest levels of access to electricity

in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems,” said Mr Aimaea.

Who is Superfly solar?

Superfly is Solomon Islands only quality focused solar energy company. Superfly is focused on quality. We design our solar systems for Solomon Island's hot temperatures and remote, rural conditions.

Can solar power improve life in the village?

In short, solar power can improve life in the village in many ways. We specialise in custom-designed solar power solutions for food trucks, street vendors, and container houses.
