

European Solar Energy Storage

Beyond batteries Trinidad and Tobago

Overview

What is Beyonder battery technology?

Beyonder is a battery technology company that has developed the next generation eco-friendly and energy efficient batteries. Produced with clean energy and energy-efficient methods, our batteries have the smallest environmental footprint possible.

What is Beyonder's hybrid battery cell technology?

Beyonder's hybrid battery cell technology is a more cost-effective and sustainable way to supply electric power for renewable energy grids, transportation and offshore energy infrastructure where high power and fast charging is needed.

Where are Beyonder batteries made?

Beyonder has established a battery centre with research and development, laboratories, production testing and prototype production in Stavanger, Norway. The company will open its first separate, full-scale commercial production facility at a suitable location in the Stavanger region in 2024.

Is Beyonder LiC a good battery?

Beyonder's LiC is durable and suitable even for the Nordic low-temperature environment. The LiC's high-capacity silicon anode provides a high specific energy. The use of a wood-derived activated carbon cathode enables the LiC to operate at higher specific power, with greater durability compared to Li-ion batteries.

Beyonder batteries Trinidad and Tobago

SGI Distributors Ltd. Distribution Company of major Brands like ...

Introduced in Trinidad & Tobago in 2002, Superior American is our house brand of batteries carefully tested and selected for their suitability to the local market using the extensive knowledge and experience of SGI's owners and key personnel, who possess more than thirty years of combined experience in the local battery industry.

Beyonder's battery cell technology is a game-changer

Beyonder's hybrid battery cell technology is a more cost-effective and sustainable way to supply electric power for renewable energy grids, transportation and offshore energy infrastructure where high power and fast charging is needed. Moreover, compared with standard Li-ion cell production, fewer chemicals and less energy are used to

Beyonder and ABB to collaborate on battery technology of the ...

Beyonder's sustainable battery cell technology uses activated carbon from forest residue in its battery cells. With its unique and non-flammable technology, Beyonder will produce battery cells with high power and fast charge (1-2 minutes) for industrial applications to be used in electricity grids, supporting emissions-free solutions at
