

## European Solar Energy Storage

# Bill gates talks about solar wind and energy storage

## Bill gates talks about solar wind and energy storage

---

### Bill Gates sceptical of solar, wind power

But Mr. Gates said the "intermittency" of solar and wind makes it unviable, compared with other sources like nuclear energy and new technologies for storage.

### Bill Gates: carbon free energy is what we need to ...

Improved energy storage systems: The sun and the wind are incredible energy sources. Finding ways to store that energy to use after the sun sets and the wind stops blowing is a big challenge we need to solve.

### It is surprisingly hard to store energy

When you hear about this problem with wind and solar, it is tempting to ask: Can't we generate extra energy on days when the sun and wind are strong, and store it for those days when they're not? Here's the problem: ...

### Bill Gates-backed CO2 battery lands major deal to ...

The firm's CO2 battery technology enables 24/7

dispatchable solar and wind power, advancing energy storage and supporting global grid decarbonization with long-duration storage solutions.

## It is surprisingly hard to store energy

When you hear about this problem with wind and solar, it is tempting to ask: Can't we generate extra energy on days when the sun and wind are strong, and store it for those days when they're not? Here's the problem: Storing ...

## 3 keys for the transition to clean electricity , Bill Gates

Bill Gates highlights the three key solutions needed for the transition to clean electricity: improving energy storage, transmission lines, and power sources.

## Breakthrough Energy Founder Bill Gates on the State of the Energy

A letter from Bill Gates about the state of the clean energy transition in 2023 and why he's optimistic about the road ahead.

## Bill Gates Nuclear Storage Venture to Help Wind and Solar

A venture backed by Bill Gates has unveiled small-scale nuclear power-plus-storage technology designed to work alongside wind and solar to provide continuous zero-carbon power.

## Bill Gates: carbon free energy is what we need to tackle climate ...

Improved energy storage systems: The sun and the wind are incredible energy sources. Finding ways to store that energy to use after the sun sets and the wind stops blowing is a big challenge we need to solve.

## Bill Gates-backed CO2 battery lands major deal to power 18,000 ...

The firm's CO2 battery technology enables 24/7 dispatchable solar and wind power, advancing energy storage and supporting global grid decarbonization with long-duration storage solutions.

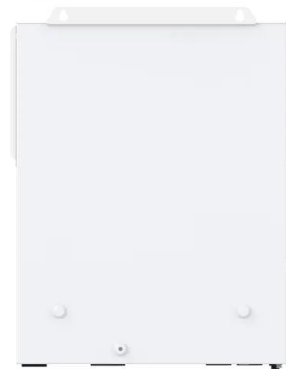

## Bill Gates says it's time to redirect solar and wind ...

It's time to redirect government subsidies supporting solar and wind farms toward clean technologies that can't yet compete on their own, according to Bill Gates.

## Bill Gates says it's time to redirect solar and wind subsidies. Is he

It's time to redirect government subsidies supporting solar and wind farms toward clean technologies that can't yet compete on their own, according to Bill Gates.
