

European Solar Energy Storage

Bosnia and Herzegovina work power solution europe

Overview

Will Kosovo and North Macedonia declare an energy emergency in August?

As EU leaders scramble to maintain their energy supplies for the coming winter, at least two Western Balkans states – North Macedonia and Kosovo – will declare an energy emergency in August, in anticipation of shortages during colder months. The covid-19 pandemic caused a significant economic shock in the Western Balkans.

Will the Western Balkans emerge from the energy crisis unscathed?

Nonetheless, high prices for imported electricity mean that the Western Balkans will not emerge from the crisis unscathed. Several states in the region are vulnerable to these rising costs – particularly as winter approaches and demand for energy rises.

Are coal-fired power plants a problem in the Western Balkans?

Most states in the Western Balkans rely mainly on coal-fired power plants to meet their energy needs. The use of these plants jeopardises their ability to fulfil the commitments outlined in the European Green Deal – one of which is a 55 per cent reduction in carbon emissions (compared to 1990 levels) by 2030.
