[Solar panels worth it? : r/longisland](#)

I purchased (not leased!) solar panels five years ago when we bought our house in Bohemia. We received \$1,000 "rebate" check from the

company, and fantastic tax incentives that saved us a small fortune in federal and state taxes! Also make sure your house is suitable for solar south facing full sun.. strong roof Mine is an 8.6kwh

Going Solar on Long Island: Incentives, Savings, and Installation

The cost of solar panels depends on many factors, but on Long Island the cost can be reduced by 55% by combining the 30% federal solar tax credit and the 25% state solar tax credit. For example, claiming these tax credits would reduce the net cost of a \$20,000 solar system to just \$9,000.

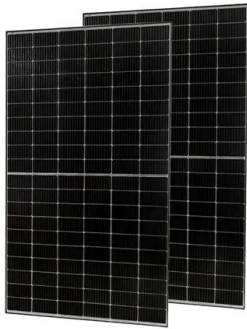

Buying solar panels outright. : r/longisland

Check out EnergySage .I'm helping my parents get solar out in AZ (I already have leased solar on my house here, which I don't recommend). You input your most recent electric bill and a satellite view of your roof and a bunch of different companies come back with quotes based on what you say you're looking for (cheapest, or most efficient, or newest technology, etc).

Solar and Roof Quote Advice (Long Island, NY) : r/solar

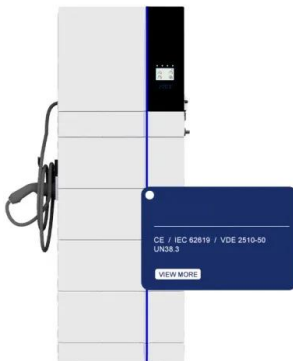

You're assuming this solar system will fully

eliminate your electric bill. More information is required to know whether this will actually be the case, but it probably won't. A 10 year old roof isn't that old and it's going to be covered by solar panels which reduces the radiation they are getting and reducing how hot the roof gets which is

Islanding and Batteries: What You Need to Know , EnergySage

A common misconception about solar panel systems is that they automatically continue to produce electricity if the grid goes down, so long as the sun is shining. All inverters are required to be able to be "anti-island." In other words, solar inverters are explicitly designed not to allow your solar panels to continue to push electricity into your home in the event of an outage.

Sample Order
 UL/KC/CB/UN38.3/UL

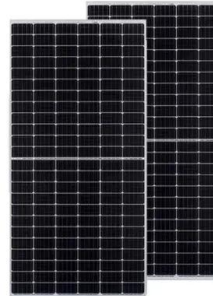

Solar Panel Initiative , Rhode Island Attorney General's Office

The residential solar panel industry in Rhode Island often involves three different companies: a sales company, an installation contractor or company, and a financing company. Solar Panel Sales Companies: Solar panel sales companies are not regulated by any state agency and do not need to be registered or licensed to operate in Rhode Island

Solar recommendations in Long island : r/longisland

Be careful with these solar companies, many go out of business in few years leaving you hanging. Own the panels instead of leasing. Solar panels last usually around 15-20 years but the inverters will need to be replaced 10 years.
