

## European Solar Energy Storage

# Brazil energy storage bid wins

## Overview

---

The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman. Will Brazil's first capacity reserve auction affect battery energy storage?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

.

What is the market potential for energy storage in Brazil?

Daniel Lyrio: TBEA considers that Brazil's market potential is estimated at 5 GWh for the next three years, considering that we have the auction in 2025, with an average market [battery project] value of BRL 1.5 million/kWh, the number to be invested is around BRL 7.5 billion. Which applications should lead the adoption of energy storage in Brazil?

.

Can TBEA replicate the energy storage model in Brazil?

TBEA will bring case studies from large energy storage projects installed by the company around the world, showing the potential to replicate the model in Brazil. pv magazine will also look at the variables that can make these projects more, or less competitive. Register now! From pv magazine Brasil.

Can batteries unlock the storage market in Brazil?

Unlocking the storage market in Brazil On Jan. 29, 2025, at 10:00 a.m., in a webinar held by pv magazine Brasil, Chinese electrical equipment maker TBEA will show how batteries are key tools to decarbonize, modernize, and make the Brazilian electrical system more flexible.

### How Brazil's first capacity reserve auction of 2025 could impact

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, ...

### Brazil's first battery storage auction pushed to second ...

Brazil's Ministry of Mines and Energy plans to hold its first auction for electricity storage batteries in the second half of this year. According to Thiago Barral, the ministry's national secretary for energy transition and ...

### Brazil's first power auction for batteries could lead to \$450 million

(Reuters) - Brazil's first-ever auction to add batteries and storage systems to its national power grid, scheduled for later this year, is seen generating \$450 million in investments, according to an estimate by consultancy firm Oliver Wyman.

### Brazilian energy auction for hydro plants to generate \$1

## billion in

Brazil's first energy auction exclusively aimed at small and medium-sized dams will generate around 5.5 billion reais (\$1 billion) in investments, power regulator Aneel said on Friday.

## Brazil's energy storage auction to attract \$450m in investments

The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.

## TBEA expects 3 GWh demand for storage projects in ...

Brazil's planned 2025 Capacity Reserve Auction (LRCAP) - intended to contract energy storage to meet electricity demand during peak hours by evening out the supply of intermittently-generated renewable energy - ...

## Brazil bets big on batteries - pv magazine International

Solar deployment has been a success story in Brazil, but the need for more battery energy storage capacity is increasingly urgent. The Brazilian energy storage market is at a turning point. Driven

## Brazil announces first battery storage auction

The launch of a dedicated BESS auction in Brazil could help boost the growth of the technology in the country and further enhance the use of renewables such as solar PV and wind.

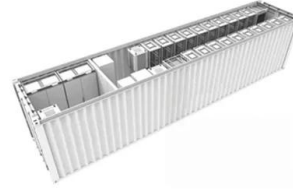

## TBEA expects 3 GWh demand for storage projects in Brazil's ...

Brazil's planned 2025 Capacity Reserve Auction (LRCAP) - intended to contract energy storage to meet electricity demand during peak hours by evening out the supply of intermittently-generated renewable energy - could ...

## Brazil's first battery storage auction pushed to second half of 2025

Brazil's Ministry of Mines and Energy plans to hold its first auction for electricity storage batteries in the second half of this year. According to Thiago Barral, the ministry's national secretary for energy transition and

planning, the process is in its final stages of preparation.

## Brazil Energy Storage Power Station Won the Bid: What This

...

When Brazil's energy storage power station projects won recent bids, it wasn't just a local headline--it sent ripples across the global renewables market.

## Brazil's Energy Storage Auction to Attract \$450M in Investments

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.
