Wärtsilä to acquire Greensmith Energy Management Systems

Technology group Wärtsilä has signed an agreement to purchase US-based energy storage solutions provider Greensmith Energy Management Systems for an undisclosed sum. The acquisition will help Wärtsilä expand its business and function as a global energy systems integrator.

Wärtsilä completes its first European energy ...

For the project, it integrated a 6 MW/4 MWh battery storage plant, complete with inverters and power electronics, with its GEMS energy management system, provided by subsidiary, Greensmith Energy

AltaGas wins 10-year SCE deal for 20MW battery

Canadian energy company AltaGas has won a 10-year deal with Southern California Edison (SCE) for 20MW/80MWh of energy storage on the site of its natural gas plant in Pomona, in southern California. AltaGas has appointed Greensmith Energy as the software provider and system integrator for the new system, which is expected to cost US\$40-US\$45

Greensmith, Sungrow picked

for Massachusetts's

PV inverter manufacturer Sungrow and energy storage system integrator / software specialist Greensmith are working on the first community solar-plus-storage project to be delivered in the US state of Massachusetts.

Greensmith announce grid connection on 20 MW storage system

"With over 50 system deliveries in the last five years, Greensmith has worked not only to advance technology, but accelerate time-to-market for grid-scale energy storage systems, with a 100% safety record," says President & CEO of Greensmith John Jung.

ROUNDUP: Solar-plus-storage in California and

A pioneer of large-scale battery storage, particularly in key US markets like California and Texas, Greensmith created the Greensmith Energy Management Software (GEMS) platform, which was part a major part of the appeal for Wärtsilä, similarly allowing energy storage systems -- and energy assets of all kinds -- to be optimised in both their

Aliso Canyon is starting gun for US utility

With over 180MW of energy storage projects under its belt, Greensmith Energy is beginning to be seen as one of the cornerstone players of the

rapidly growing US - and global - market.

Greensmith Provides Intelligent Solutions To Energy Storage ...

Energy storage uniquely benefits from this ethos and while requisite battery cost improvements will continue with production ramp and market scale of sister markets such as EV, it is still the

Greensmith Launches Energy Storage System Audit Service, ...

RESTON, Va., July 14, 2015 /PRNewswire/ -- Greensmith, a leading provider of grid-scale energy storage software and integration solutions, today announced the launch of StorageCheck(TM), a new

Wärtsilä purchases Greensmith Energy Management Systems for ...

"Greensmith brings an unmatched track-record of software and systems integration capabilities, having delivered a third of all 2016 energy storage installations in North America. Wärtsilä's global footprint with extensive sales and services

network, besides its proven EPC expertise, will create significant synergies and growth."

Greensmith Energy

Greensmith Energy, one of the largest providers of energy storage software and integration services, announced that American Electric Power (NYSE: AEP) has selected Greensmith as the software provid. . .

US presidential election '24 and energy storage: 'Result will not

Andy Tang, VP of energy storage and optimisation (ES& O), Wärtsilä Energy. For now, the US industry is largely dependent on Chinese battery imports, and while US battery manufacturing at scale is an achievable goal, it's unlikely to be able to meet its demand enough to move the needle until around 2027 at the earliest, says Andy Tang.

Software: The driving force putting batteries at

Software is rapidly becoming recognised as key to the value proposition and bankability of energy storage, which in turn lies at the heart of the energy transition. Luke Wittmer would argue

too that although now part of a much bigger entity, the cloud computing evangelist ethos of Greensmith Energy lives on as part of Wartsila. The
