### CTP installs photovoltaic power station in Bucharest

CTP, the largest owner and developer of industrial and logistics space in Romania, is continuing to invest in green energy through the installation of a 1.5 MW photovoltaic power station at the CTPark Bucharest industrial park in western Bucharest.

### CTP and Enel X: 1.5 MW photovoltaic power plant at CTPark Bucharest

CTP announced the construction and installation of its first photovoltaic station in Romania on the rooftops of the company's buildings at its CTPark Bucharest West industrial park, located 23 km from the capital on the A1 motorway, in spring 2022.

Voltage range: 691.2-947.2V  
 >6000 cycles (100% DOD)  
 Rated battery capacity: 216KWH (customizable)  
 EMS communication: 4G/CAN/RS485

### ROMANIA: Turkey's largest industrial group will own a large

With the revival of the photovoltaic energy market in recent years, Romania is attracting foreign Turkey's largest industrial group will own a large photovoltaic park near Bucharest

### Bucharest's Energy Crossroads: How Photovoltaic

## Storage Could ...

But here's the kicker: 68% of Romania's power still comes from aging fossil fuel plants. With grid reliability becoming sort of a guessing game during peak summers, photovoltaic energy storage isn't just an option anymore; it's Bucharest's ticket to energy sovereignty.

## CTP and Enel X install a new 1.5 MW PV power station

CTP announced the construction and installation of its first photovoltaic station in Romania on the rooftops of the company's buildings at its CTPark Bucharest West industrial park, located 23 km from the capital on the ...
