

European Solar Energy Storage

Call solar Turks and Caicos Islands

Overview

Who provides electricity in Turks and Caicos?

Together, both companies provide electric power in Turks and Caicos to over 15,000 customers and are regarded as one of the most reliable electricity providers in the Caribbean. FortisTCl offers customized energy audits to help customers achieve greater energy efficiency and savings.

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCl are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

How do you call the Turks and Caicos Islands?

Calls to the Turks and Caicos Islands from within the North American Numbering Plan (which includes the United States, Canada and a number of Caribbean islands) are dialed like any other long-distance call: 1 649 xxx xxxx. From the 1980s to 1997, the islands had just 946, then later also 941, as exchange prefixes.
