Larne CAES wins EU funding

A proposed large-scale energy storage project in Northern Ireland has been awarded EU funding of EUR90 million. The Larne compressed air energy storage (CAES) project is being developed by Gaelectric and would contribute to system flexibility and stability and facilitate the large-scale penetration of renewables, the European Commission said.

Ireland latest territory for Tesla's renewables-integrating storage

Commenting on the company's partnership with Tesla, Gaelectric head of energy storage, Keith McGrane, said: "The accelerating pace of storage technology development and its application to how we generate, use and store power is truly astounding. Much of these developments are around incorporating greater amounts of renewable power

Scatec commissions 'pre-assembled' solar-plus-storage

...

Norway-headquartered renewable energy company Scatec has brought online two solar-plus-storage hybrid resources projects in Cameroon, Africa. The two projects total 36MW of solar PV generation capacity paired ...

Gaelectric secures EUR38m fund from Allied Irish Banks for two wind ...

Ireland-based renewable energy and energy storage group Gaelectric has closed a EUR38m financing agreements with Allied Irish Banks to develop two wind farms in county Kilkenny, Ireland.. The financing agreements on both projects will be valid for 15 years.

Scatec doubling solar and storage projects' capacity in ...

Norway-headquartered renewable energy company Scatec will add 28.6MW of solar PV and 19.2MWh of battery energy storage systems (BESS) to projects in Cameroon, via a local subsidiary. Subsidiary Release ...
