Cameroonian solar panel installers – showing companies in Cameroon that undertake solar panel installation, including rooftop and standalone solar systems. 26 installers based in Cameroon are listed below.

Through affordable solar home systems, we provide easy access to clean energy for people who live with no access to the national grid in Cameroon. Our customers pay through small installments over 18-36 months. How to increase solar energy in Cameroon?

In order to enhance solar energy in Cameroon, the government recently signed an agreement with China to carry out feasibility studies aiming at installing several light points in Yaoundé . Recently, Cameroon obtained eKiss (energy-keep it simple and safe) mobile off-grid photovoltaic systems from Antaris Solar .

Why is solar energy a problem in Cameroon?

The solar energy is at pilot stage now in Cameroon. There are several issues that are hindering the process. The Government has not taken necessary

steps to enhance the sector. This may be due to the high capital cost of solar technology. There is also lack of sensitization by the government towards the public on the benefit of solar energy.

Does Cameroon have good solar potential?

There is good solar potential in Cameroon (see Fig. 5) but it is not well developed. The major cause of the poor state of solar energy development is the poor commitment and dedication of government in taking important steps to boost the sector. In most part of the country, the mean solar irradiance is approximately 5.8 kWh/m<sup>2</sup>/day .

What is the price of electricity in Cameroon?

Cameroon, September 2022: The price of electricity is 0.083 U.S. Dollar per kWh for households and 0.153 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

What is a PAYG solar home system?

PAYG stands for Pay-As-You-Go, which means our clients can pay for a solar home system in regular, flexible installments all the while using their product. Monthly payments are equivalent to the monthly cost of kerosene lamps. Our solar home systems have a minimum warranty of 18 months, and their light will shine many years after this period ends.
