TARIFF FOR RETAIL DELIVERY SERVICE

NOTE: The application review package shall include a electrical one-line diagram showing the relationship of the generation unit tied into a breaker or breakers in the electrical panel and the CenterPoint Energy (CNP) meter location.

CenterPoint Energy can save you money and energy with solar

CenterPoint Energy provides incentives to participating service providers who install solar photovoltaic systems on homes within CenterPoint's electric territory.

[Texas Solar Buyback Plans](#)

4 ???· Buyback Plans for Texas Solar Owners
When your rooftop solar system produces more electricity than your home is using, the excess flows back onto the grid to other users. With a "buyback" electric plan, that earns you bill ...

Guide to Going Solar with CenterPoint Energy

Whether you're a homeowner looking into Texas solar incentives or a business aiming to boost its sustainability efforts, this guide will walk you through everything you need to know about going solar with CenterPoint Energy.

Net metering in Houston/Katy TX

I live in NE Texas. I have both gridtie and off grid/battery systems. What you may find depending on your usage is that it is cheaper to just give away the excess power for free. We did this for 10 years before we got the off grid/batteries which reduced our grid usage very low. The reason for this is that if you give the excess for free and just have a regular plan, you ...

CenterPoint Energy: PV Solar Program

This program was developed to achieve cost-effective reduction in peak demand on the electric grid and is designed to be simple and beneficial for all parties involved. Incentives are paid to contractors for the installation of Solar Photovoltaic panels on residential buildings.

Learn How Solar Works for CenterPoint Energy Customers

Learn the ins and outs of how the Solar Buy Back Plan works with CenterPoint Energy. Find out if there are any extra incentives on getting solar panels in Houston.

Texas

CenterPoint Energy owns the grid, and other companies provide your service, using CPE's infrastructure. The companies best as your utility provider during solar are almost always Green Mountain Energy & Reliant.

Texas Power Grid Explained , Quick Electricity

The grid itself is managed by six transmission and distribution utilities (TDU): AEP Texas Central, AEP Texas North, CenterPoint Energy, Oncor, Texas-New Mexico Power, and Sharyland Utilities.
