Our campaigns help homeowners, businesses and nonprofits become more resilient, reduce energy expenses, and save on the cost of renewable energy systems by obtaining volume discounts on materials and installation services—the more that participate, the greater the savings!.

Solarize Forsyth is a community-based group-purchasing program for solar energy, battery storage, and other clean energy technologies. Our campaigns help homeowners, businesses and nonprofits become more resilient, reduce energy expenses, and save on the cost of renewable energy systems by.

The photovoltaic (PV) solar array on the Tanglewood Park maintenance building is one of Forsyth County's key Sustainability initiatives for 2024. The 70 kW (kilowatt) array generates renewable electricity from solar energy which will provide approximately 103 MWh/yr, or 64%, of the electricity.

North Carolina has a variety of solar programs and incentives for homeowners, but things like roof slope and orientation, tree cover, and peak energy use all play a role in determining the suitability for each individual home. Join Phyllis Smith, Natural Resources Agent for N.C. Cooperative.
