

European Solar Energy Storage

Capital energy Seychelles

Overview

Who is capital energy?

We are a firm with almost 20 years of experience and we aspire to become the first 100% renewable vertically integrated electricity enterprise on the Iberian Peninsula. We cover the business of promotion and development up to clean electricity generation, storage and sales. Capital Energy is present along the entire renewable energy value chain.

What is a 100% renewable Seychelles?

A 100% renewable Seychelles - A plan to change the Seychelles' power supply to 100% renewables, its costs and possible benefits. Centre for Sustainable Energy Systems (CSES/ZNES), System Integration Department. Report 1: Mahé, and Report 2: Praslin and La Digue. International Monetary Fund (IMF). (2017a).

Where is the capital of the Republic of the Seychelles?

In the north-east of Mahé, bordered on one side by steep mountain slopes, is the capital of the Republic of the Seychelles.

How much does Seychelles contribute to global emissions?

With approximately 0.003% of the world's GHG emissions in 2011, Seychelles contributes only marginally to the global emissions on an absolute scale (GoS, 2015). However, in particular the energy sector is carbon intensive. About 90% of all domestic CO₂ emissions stem from power generation and the road transportation sector.

What is the 'baseline scenario' for energy in Seychelles?

So far, the "baseline scenario" for energy in Seychelles is of slow, incremental addition of RE production, that will likely meet the modest 5% RE by 2020 but will struggle to meet the 15% by 2030 target without substantial changes to overcome technical, institutional, regulatory and financial barriers.

Are fuel imports a problem in Seychelles?

In 2014, fuel imports for electricity production amounted to 4% of Seychelles' annual national income (gross domestic product); together with the imports of transport fuels, more than 5% of the national income is used to cover fuel bills (Hohmeyer, 2016). This poses a major threat to the economic development and stability of Seychelles.
