Cell pack solutions Burundi

Overview

Who is cell pack solutions?

" We are excited to announce the acquisition of Cell Pack Solutions, the renowned British battery company that produces high-quality battery solutions for various industrial segments," says Peter Andersson, President of Celltech Group.

Who is cell pack?

Cell Pack specialises in developing, manufacturing, and marketing its own brand of battery solutions to customers in various sectors, including utilities such as water, gas, electricity, and sewage, as well as oceanography, security, medical, instrumentation, tracking, environmental research, and IoT.

Are cell pack solutions ISO 9001 certified?

Cell Pack Solutions are proud to maintain and improve our quality programme to comply with ISO 9001:2015 (QMS) accreditation and have done so for over 15 years. It is our goal to ensure the processes related to the production of our products meet these standards to ensure customer satisfaction.

Why should you choose cell pack solutions?

We design & manufacture custom battery packs using cells from the worlds most reliable brands. Why Choose Cell Pack Solutions?

Cell Pack Solutions work with world leading cell manufacturers to guarantee the best possible performance We have the knowledge to give your project the best power solution depending on factors important to you.

Why did cell pack solutions start manufacturing HLC battery packs?

Cell Pack Solutions started manufacturing HLC battery packs. Registered with Recycling Battery Directory to help reduce the enviornmental impact of batteries Ensuring that we comply with applicable laws, regulations, and other

environmentally oriented requirements; and continually improve upon them.

Does cell pack solutions offer a whistleblower service?

Cell Pack Solutions strives to maintain a transparent business climate and high business ethics. We value the safety and respect of everyone affected by our business. Because of this, we offer a Whistleblower service that anyone can use to report irregularities that go against our values and Code of Conduct.

Cell pack solutions Burundi

FAQ

Battery packs constructed by Cell Pack Solutions for use in industrial applications come with protection as standard, there will also generally be a connector or terminal attached to make sure the battery pack cannot possibly be connected in the device the wrong way. Batteries should be undamaged unless connecting them the wrong way round

If you need a custom made or bespoke battery pack to match your specifications, we can advise the best possible ...

Making Positive Connections

At Cell Pack Solutions, we've always believed in making a positive contribution to both our local and wider communities. Whether it's donating to local clubs and charities or reducing our environmental impact through sustainability efforts, we recognise that much of our success comes from the incredible people who surround us in the North

Saft LSH20 D Lithium Battery

Under no circumstances should you solder directly to any cell, this is against the manufacturer's guidelines. If you need more advice, please Contact Us. Saft manufacture two types of Li-SOCI2 D cell. This product, the LSH20 and an LS33600. Please check to make sure you are ordering the correct cell for your application.

Custom Battery Packs

Designing and delivering quality custom battery packs has been the driving factor of Cell Pack Solutions' success for over 25 years. In that time, we have developed over 3,000 unique battery pack designs that have endured some of the world's harshest conditions.

**Home Energy Storage
 (Stackable system)**

High Efficiency

Easy installation

Safe and Reliable

Perfect Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimizer
- Integrated with inverter to avoid the compatibility problem
- LFP battery, safest and long cycle life
- Stackable design for easy installation
- Capable of High-Powered Emergency-Backup and Off-Grid Function

**GP Batteries GP450LAH 18670
 Rechargeable Battery**

The GP Batteries GP450LAH is a flat top 4300mAh 18670 cell. These batteries are commonly used in battery pack production because they offer a superior safety standard and long service life. This cell is part of the GP Industrial Standard Series. This core range offers balanced performance between charge retention, discharge rate and cycle life.

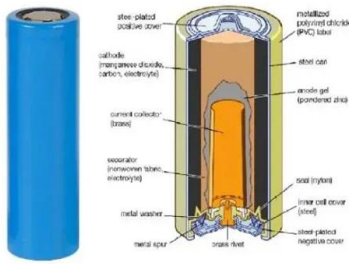

**GP Batteries GP80AAAH AAA
 Rechargeable Battery**

The GP Batteries GP80AAAH is a flat top 780mAh AAA cell. It's an obvious choice for industrial applications if you need a AAA sized solution. Commonly used in battery pack production because they offer a superior safety standard ...

Cell Pack Solutions makes The Shields Gazette!

The article also emphasizes the cooperation between Cell Pack Solutions and other local businesses in South Shields. Eddie, our Directing Manager has always been in favour of working with local businesses in order to support local infrastructure. One of these businesses were S Davison (Electrical) who helped us with our building development.

Cell Pack Solutions - Part of The Celltech Group

We are proud to announce that Cell Pack Solutions Ltd is now part of the Addtech Group, under their electrification division - Celltech. This exciting development strengthens our position for a positive future, enabling ...

GP Batteries GP80AAAH AAA Rechargeable Battery

The GP Batteries GP80AAAH is a flat top 780mAh AAA cell. It's an obvious choice for industrial applications if you need a AAA sized solution. Commonly used in battery pack production because they offer a superior safety standard

and long service life. This cell is part of the GP Industrial Standard Series.

Standard Li-Ion Battery Packs

Here at Cell Pack Solutions we stock a range of standard Li-Ion Battery Packs which are used in a wide range of applications both in consumer and industrial markets. All of these lithium batteries have a PCM (protection control module) to ensure safety.

Tadiran Lithium SL-2870 C Battery

We can supply this Tadiran battery as a standard cell or with Tags. Notes: This product contains over 1g of lithium and requires a Dangerous Goods Note for delivery. The four letters printed under "SL-2770" on the cell determine traceability. The SL-2800 series are special Tadiran cells and will have a long lead time.

Efficient
Higher Revenue

• Max. Efficiency 97.2%
 • Max. PV input Voltage 600V
 • 150% Peak Output Power
 • 2 MPP Trackers, 150% DC Input Overvoltage
 • Max. PV input Current 15A, Compatible with High Power Modules

Intelligent
Simple O&M

• IP66 Protection Degree: support outdoor installation
 • Smart 1V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 • DC-DC AC Input SPD: prevent lightning damage
 • Battery Reverse Connection Protection

Flexible
Abundant Configuration

• Plug & Play, UPS Switching Under 10ms
 • Compatible with Lead-acid and Lithium Batteries
 • Max. Current Inverter Thermal
 • AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

Cell Pack Solutions Completes Acquisition of Tracer Power

Cell Pack Solutions has completed the acquisition of the Tracer Power Division of Deben Group Industries Ltd. Tracer Power, established in 1978, specialises in lithium battery solutions globally. Offering a number of packaged retail products primarily through trade but also direct to consumers. As well as providing bespoke

solutions for larger

GP Batteries Super Alkaline AAA Batteries

Introducing GP Batteries' Super alkaline AAA battery range, up to 50% more power, powered by cutting-edge G-Tech. Four breakthroughs transform traditional AAA batteries into superior power sources.

Cell Pack Solutions: Getting to know our distributor network

In April of this year, Cell Pack Solutions became part of the Addtech Group, under their electrification division. Drawing on Addtech's well-established network across ...

ATEX Batteries for Hazardous Environments

Cell Pack Solutions can advise, design and assemble custom battery packs tailored to your products specific requirements taking into consideration ATEX and IECEx standards. Having designed and assembled countless custom battery packs for use in ATEX equipment. Our extensive knowledge can guide you to a better power option for your project.

Battery Chargers

At Cell Pack Solutions we stock a wide range of different battery chargers for a range of chemistries including Lead Acid, Lithium-Ion,

NiMH & NiCd. We also stock a range of charger accessories you might need, such as additional plug adapters for worldwide use.

Batteries

Here at Cell Pack Solutions we supply Batteries to fit into almost any consumer or industrial application. We offer a multitude of different chemistries including Alkaline, Lead Acid, Lithium, NiCd, NiMH and Zinc.

Cell Pack Solutions' Post

Cell Pack Solutions has expertise in building battery packs for extreme conditions, and caters to various sectors, including utilities, oceanography, security, medical, instrumentation,

Utilities Battery Packs

Cell Pack Solutions specialise in designing and manufacturing high-quality battery packs for a variety of applications in the utilities industry. Our custom battery packs are tailored to meet the unique needs of our customers, whether that means maximizing energy density, optimizing power output, or ensuring long-term reliability.

Cell Pack Solutions Ltd to Celltech Group

Cell Pack Solutions Ltd, a British battery company, has joined the Celltech Group. As a result, Celltech Group now has research and development and production facilities in five countries. Celltech Group has ...

AA Batteries

We stock a very wide range of these at Cell Pack Solutions and have offerings from multiple chemistries including Alkaline, NiMH, Lithium and Zinc Chloride. We only stock our batteries from high quality manufacturers such as GP Batteries, Tadiran, Saft and Panasonic so you can be assured you are getting a high quality product at a competitive

Cell Pack Solutions

Cell Pack Solutions is combining the latest design and manufacturing technologies with experienced qualified engineers and a great backup team; Cell Pack Solutions offers you ...

GP Batteries Ultra Alkaline AAA Batteries

We supply Ultra Alkaline AAA cells in either a pack of 4, a pack of 8 (+ 4 free), a box of 24 or a box of 40. Data Sheets Technical Data Sheet File Size: 0.11 MB Safety Data Sheet File Size: 0.14 MB REACH Implementation File Size: 0.10 MB

Company

Cell Pack Solutions is part of the Addtech Group, under their electrification division - Celltech. We share the groups mission to enable electrification in the safest and most sustainable way. In 2021, our battery chemistry portfolio ...

Delivery

Cell Pack Solutions want to keep delivery options as simple as possible. On this page, you will find detailed pricing along with estimated delivery times. If you have been directed here from the basket after a message regarding a hazardous or custom made product, please navigate to the appropriate section below for more information.
