Central African Republic accumulateur solaire

Overview

Where is Central African Republic launching a new solar park?

BANGUI, November 17, 2023 – Today, the Central African Republic is launching a new 25-megawatt solar park with battery storage in Danzi village, located around 18 kilometers from Bangui. The park will supply electricity to 250,000 persons in the capital, almost doubling the country's electricity generation capacity.

Will Central African Republic have electricity by 2030?

By 2030, almost half of the population of the Central African Republic should have access to electricity, compared to only 16% at present. Today, the Central African Republic is launching a new 25-megawatt solar park with battery storage in Danzi village, located around 18 kilometers from Bangui.

Why is Central African Republic investing in electricity?

With an electrification rate of 35% in Bangui, 8% in the main provincial cities and towns, and only 2% in rural communes, the Central African Republic has invested in the energy sector as an engine of development to increase access to electricity and promote sustainable growth.
