CERT Systems Inc. Cleantech Remediation UTEST. CERT is developing an electrochemical carbon dioxide (CO2) conversion technology to produce fuels and chemical feedstocks. Their technology provides an ...

CERT Systems

CERT Systems General Information Description. Developer of carbon dioxide (CO2) utilization system designed to catalyze the closure of the carbon cycle. The company's system converts carbon dioxide into fuels and chemical feedstocks using only water and renewable electricity, enabling clients to deeply decarbonize chemical manufacturing.

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5
