## Meet the Maker: Chad Miller, Solar Maker

And it could be done by strategic placement of solar installations around the globe. But for all that, Chad says, solar has a problem. And it is silicon. While it has been the basis for getting solar energy efficiency up to 24-25%, it must be created at very high pressure, in a slow, highly energy-intensive process.

## Chad Zesiger

Southern Utah Construction Manager and Journeyman Electrician for ES Solar · Projects have included dialysis clinics, schools, restaurants, Anytime Fitness, Hobby Lobby, mall lighting upgrade
