

European Solar Energy Storage

Cheapest container battery system supplier in Chile

Overview

Are battery energy storage systems a viable alternative for Chilean power producers?

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean power producers.

How much does a battery cost in Chile?

In fact, batteries charged at nearly \$0/MWh during the day in the sunny, northern desert regions of Chile, sell energy at night for over \$100/MWh. Although projects such as Engie's BESS Coya are already enjoying these large spreads, this capacity payment will partially de-risk Chile's dependence on volatile, but still profitable, merchant revenues.

Where to ship a container to Chile?

Shipping to Santiago: The capital of the country with a dry port where the container gets customs cleared. It is also the place for most of the international incoming air shipment to Chile. – Shipping to San Antonio, Chile: It is usually the same cost as shipping to Valparaiso as they are like 15 miles from each other.

Will new solar assets in Chile have storage components?

New utility-scale renewable and PMGE assets in Chile (most of which are distributed solar plants smaller than 9 MW) will likely all have storage components moving forward.
