

## European Solar Energy Storage

# Cheapest container battery system supplier in New Zealand

## Overview

---

### What is a battery storage container?

Suitable for tech and retail clients across New Zealand, our battery storage containers help secure lithium and other types of batteries—and can reduce the risk of fire in the event of an emergency. We recently delivered 50 battery storage containers to a client in the automotive sector. This is how it looks at their factory.

### Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

### Can batteries be used in New Zealand?

n cost of system. CASE STUDIES We researched the applications where batteries could be used in New Zealand, and the additional services they might realistically provide. Of all potential options, we have fully developed the five most useful (and economically promising) as case studies, using the revenue and cost assumptions out.

### Why should you hire a battery storage container?

Further evidence of our commitment to battery safety can be seen in our shipping containers for hire as battery storage centres. Suitable for tech and retail clients across New Zealand, our battery storage containers help secure lithium and other types of batteries—and can reduce the risk of fire in the event of an emergency.

### Can battery technology save energy in New Zealand?

transferring and using energy. In New Zealand, our hydro lakes store energy on a large scale. However, until now we have had limited options to store

electricity cost-effectively close to where it is used. Around the world, battery technology now offers opportunities to store electricity economically.

Who are Titan battery energy storage systems?

Which is where TITAN's battery energy storage systems come in. TITAN are veterans of the shipping container market, and over the past 35 years have become a leading provider of secure, robust containers for shipping, storage, refrigeration and offshore use. Today, we are also a name you can rely on for safe battery storage.
