

European Solar Energy Storage

Cheapest containerized renewable power supplier in Norway

Overview

Do power companies in Norway have a 'safer agreement'?

Power companies in Norway do not have the full freedom to engage in broad marketing, but they are allowed to offer additional services to their own customers, as many of them also do. But many of these additional services, and “safer agreements”, are factors that only affect the electricity consumer.

What is a variable price electricity deal in Norway?

Variable electricity price can also be referred to as "standard variable price" and has previously been the most popular, and remains one of the most common power contracts in Norway. Variable price electricity deal follows a certain degree the spot price and therefore depends on the needs in the market.
