

## European Solar Energy Storage

# China smartflower solar price

## Overview

---

The cost per watt for a Smartflower is anywhere from \$6.25 to \$7.50, with an average price of about \$6.75, assuming that it is equivalent to producing a 4 kW fixed rooftop array.

The cost per watt for a Smartflower is anywhere from \$6.25 to \$7.50, with an average price of about \$6.75, assuming that it is equivalent to producing a 4 kW fixed rooftop array.

Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000, with the average cost to install at \$27,000.

The SmartFlower cost is currently \$16,900 for a single unit, but the Smartflower costs \$22,000 for a complete system with batteries included.

What is the price of a standard Smartflower solar system?

The standard 2.5 kilowatt Smartflower system is priced at \$39,950, excluding the costs for shipping and installation. How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost?

Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What is smartflower solar?

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This 'smart' solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

How much does a smartflower cost?

Installing a Smartflower ranges from \$25,000 to \$30,000, with the average U.S. customer likely paying around \$27,000. Pricing for the Smartflower PLUS and the Smartflower with integrated car charging is not yet available. The best way to compare solar panel system prices is to determine the electricity generation cost per watt.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

Does a smartflower produce more electricity than a solar panel?

Thanks to this tracking capability, the Smartflower can produce significantly more electricity than a similarly-sized rooftop solar panel system – up to 40 percent more, according to Smartflower's website.

What makes a smartflower a 'smart' Solar System?

It comes with a convenient number of features, and its unique with ground-mounting solar panel systems. It also includes a sun tracker and more impressive high-tech features, that makes the 'smart' in its name ideal. The smartflower has a multi-purpose system that is quite self-sustaining and distinctive from the traditional rooftop panels.
