Christmas Island Solar (Western Australia - 6798)

We would expect a 6kW solar system in Christmas Island to produce 26.40kWhs of solar energy over the course of a year. How much this is actually worth depends on how much you pay for power and how much solar power you send to the grid. A 6kW solar power system is shown here - commonly 17 x 370W panels are used to get to 6.3kW.
