Transformer Coating Systems

We develop special corrosion protection systems for tanks, cooling fins and other components that are exposed to extreme conditions - both outdoors and indoors. Internal coatings must withstand transformer oils at temperatures of up to 130 °C ...

ClearPower Modules

Power design doesn't need to be complicated. With Allegro's ClearPower Modules, there is no need to spend hours designing EMI filters and control loops. Our ClearPower Modules allow you to spend less time resolving EMI issues and help reduce your time to market.

Power Electronics & System Components

power electronics & system development. Power

Electronics & System Components covers the whole range of power electronics system development from development of novel solutions for the electricity grid, via specification and prototyping towards ...

Upper Austria: 200,000 roof-top PV systems by 2030!

In its new PV strategy, the region of Upper Austria has set itself the clear goal of achieving 200,000 roof-top PV systems by 2030, thus increasing its solar power tenfold! To drive this ambition, the regional government and OÖ Energiesparverband (ESV) have launched a new large solar campaign, "Solar. Sonnenklar".

Power Clearing & Settlement Austria

We calculate, clear and settle the balancing energy used by your balance group(s) in the APG control area. What we do EnergyMonitor. The energy market never stands still. Now ...

ClearPower Regulator Modules , Allegro MicroSystems

Allegro's ClearPower regulator modules aid the implementation of power management networks and provide industry leading Grade 0, 150°C temperature operation, robustness, extensive protection and diagnostic functions. If you still have issues seeing the form after accepting
