Is there a fuel shortage in the Cocos Keeling Islands?

Viva Energy is responsible for the delivery of fuel to Cocos Keeling Islands, Australia's most remote community, and an unfortunate series of events late last year has led to a shortage of premium unleaded fuel on the islands. Viva Energy has been actively working on alternative supply solutions.

In addition, it now boasts a 50kW PV array and 24kW of wind generation capacity. The latter is usually enough to cover energy demand during the night, given the islands northerly location. There is also a diesel genset, but is considered a 'last resort' backup source of energy. Excess wind generation is fed into a bank of storage heaters.
