

European Solar Energy Storage

Con edison solar energy buy back

Overview

Can I sell solar power back to Con Edison?

You can sell your extra solar power back to Con Edison, earning private solar generation credits. Your electricity generated by your solar panels travels through the supply panel to provide power to your lights and appliances. The supply panel is connected to your Con Edison meter.

Why does Con Edison buy back energy?

This service is called “buy back” because Con Edison purchases your energy. Tariff for emergency export program, General Rule 8, page 79: Rules for emergency export to the company's distribution system. This category applies only if your generation is connected at the high-tension level, and is limited to generation in excess of your load.

When do Con Edison solar credits expire?

Con Edison 3-Year Historical Average Full Service Electric Rates for SC1 and SC2 Residential Customers: If you're a residential customer with solar installed before March 10, 2017 (Grandfathered NEM), your excess solar credits are cashed out every January by default.

Does Con Edison cash out the solar 'bank' at the end of the year?

For Con Edison customers who are not small residential, there is no cashing out of the solar 'bank' at the end of the year. Instead, these credits apply to future usage (SC-2). For SC-8 and SC-9 customers, the excess energy generated is converted to dollars and applied against remaining billing items such as demand charges.

Can I sell private generation to Con Edison?

Tariff for all customers using private generation to support their own load: Standby Service, page 156: The rules if you use private generation strictly to support some or all of your own load, and do not sell any to Con Edison.

Will Con Edison withdraw its equity guidance in 2022?

In light of the pending transaction, Con Edison intends to forego its previously announced plan to issue up to \$850 million of common equity in 2022 and withdraws its equity guidance for 2023 and 2024.
