Overview

Some of the cons of solar energy are: the cost of adding solar, depends on sunlight, space constraints, solar energy storage is expensive, installation can be difficult and environmental impact of manufacturing and disposing panels. Solar panels last 25 to 30 years. Why is Con Edison charging me for solar panels?

Solar panels can offset your overall energy consumption, but they typically do not reduce your monthly demand. Demand charges cover Con Edison's cost to maintain our facilities to meet our customers' maximum energy needs. I got solar panels so I'd never have to pay another Con Edison bill ever again. Why are you still billing me?
