

European Solar Energy Storage

Container pv storage EPC service price in Malaysia

Overview

What are EPC & EPCM contracts in Malaysia?

Many clients in Malaysia face the same dilemma. Whether you're building a new factory, a power plant, or some other major facility, understanding your options is crucial. Two popular approaches you'll often hear about are EPC (Engineering, Procurement, and Construction) and EPCM (Engineering, Procurement, and Construction Management) contracts.

What does an EPCC do?

As an EPCC (or EPC) specialist, it's our job to deliver outstanding engineering work and safety performance at every level to ensure you achieve your solar ambitions. Because sustainability is a continuous journey and we're with you every step of the way. EPCC = Engineering, procurement, construction and commissioning. Solar PV engineering.

Are there standard Australian contracts for EPC & EPCM?

There are no standard Australian contracts for EPC or EPCM, and careful drafting of contracts is important. FIDIC international contracts are available. It's important to adapt contract approaches to the local context in Malaysia. Here are some practical tips for choosing the right contract:

What does EPC stand for?

Besides building and operating our own solar farms, we are putting our expertise to good use as an engineering, procurement and construction (EPC) contractor, offering sophisticated solar energy services and solutions that enhance productivity, cost-efficiency and performance for companies across the business spectrum.

Who is heitech Eco Energy Sdn Bhd?

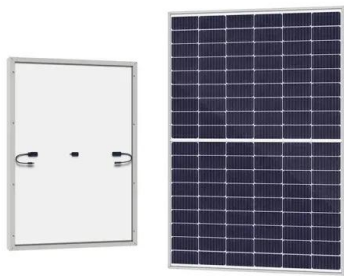

Our extensive reach makes HEITECH ECO ENERGY SDN BHD an ideal partner for leading international investors in the solar power industry. Through the

financial strength and stability of its parent companies, HEITECH ECO ENERGY SDN BHD has the support and financial backing necessary to undertake the largest utility scale solar projects nation-wide.

What services does EPC offer?

Our suite of EPC offerings includes development, investment, building and operation of renewable energy projects, covering power plant installation, commissioning and testing services.
