

## European Solar Energy Storage

# Containerized solar power plant EPC service price in Serbia

## Overview

---

The price amounts to 25,000 euros per MW of power. For one or more power plants whose total power is greater than or equal to one megawatt, a license for performing energy activities is required. This license is issued for a period of 10 years. Can Serbia build a solar power plant?

The Government of Serbia has signed an agreement with the Hyundai Engineering-UGT Renewables consortium on building solar power plants with a total connection capacity of 1,000 MW (1,200 MW in nameplate capacity), along with battery systems for electricity storage of up to 200 MW/400 MWh. The signing will be followed by talks on financing terms.

Who owns the large-scale solar and battery energy storage project?

Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by Electric Power Industry of Serbia (EPS) once completed.

What happens after EPs signing a power plant contract?

The signing will be followed by talks on financing terms. Once the construction is completed, the plants will be handed over to state power utility Elektroprivreda Srbije (EPS).
