

European Solar Energy Storage

Cosmic solar systems Central African Republic

Overview

Who is cosmic solar systems?

Cosmic Solar Systems has been successfully installing and servicing Solar Geysers and Photovoltaics for domestic, commercial and industrial use in Johannesburg, since 1981. We also install heat pumps and induction water heaters, which use a fraction of the the energy of conventional resistance elements. BEST PRODUCTS, ROBUST DESIGN.

Are cosmic solar systems guaranteed?

All Cosmic Solar Systems installations are guaranteed. By customizing a system to meet your daily hot water needs, you'll experience a significant reduction in electricity consumption right after installation. Since approximately 60% of your total electricity usage comes from the geyser, you can anticipate an overall decrease of around 40%.

Do cosmic solar systems withstand the harshest weather conditions?

Designed to withstand the harshest weather conditions, including freeze protection, Cosmic Solar Systems have excellent corrosion protection, even with the most aggressive water. To keep water hot for longer, we use a 50mm thick, high-density insulation.

Most Energetic Cosmic Ray Electrons Ever Have Been

If we include neutrinos, we think trillions of them are passing through your body right now, but if we just focus on cosmic rays from beyond the Solar System, we still get a fair amount hitting us

Neutrino energy: harnessing the power of cosmic radiation

The International Energy Agency predicts that solar power will outpace all other forms of energy by 2040, but solar energy's inevitable downfall is that it can't work when the sun isn't shining. Enter Neutrino Energy and its Power Cubes, able to harness the power of cosmic radiation, or neutrinos, even in total darkness.
